Hi Hal. Here's the latest info:

The status on the Lower Passaic is --

- River Mile 10.9 Removal Action expected to begin late July/early August; PRPs are doing the work.
- Proposed Cleanup Plan for lower 8 miles of the Lower Passaic expected to be issued before end of this calendar year; EPA performed the Focused Feasibility Study that will support the Proposed Plan.
- Remedial Investigation & Feasibility Study for entire 17-mile stretch of the Lower Passaic is underway, being carried out by PRPs; expected completion date is 2015.

Subject: Question Passaic River

Hi Lisa.

Tks again for that call last week.

Have a quick question. What is the status of the study for lower Passaic clean up? The Senator is meeting with Gina McCarthy tomorrow so I am sure he will want to ask about that project.

Tks,

Hal
